

# THE Gleichen Call

TWENTY-THIRD YEAR No. 49

GLEICHEN, ALBERTA, WEDNESDAY, FEBRUARY 26, 1930

SUBSCRIPTION \$2.00 PER YEAR

## MARQUIS MUNICIPALITY ANNUAL MEETING LARGELY ATTENDED

(By John Glambeck)

The annual meeting of the ratepayers in the Marquis Municipality, held at Lake McGregor school, was so well attended that half the crowd had to stand up and the assembly reached outside the school house.

As it seems that our annual meetings increase in attendance every year it was decided to have next year's meeting in a hall either at Milo or Queenstown. From the secretary-treasurer's report it appears that the Municipality is fairly well situated financially.

The nomination for the councillor resulted in four nominations so there will be an election. Messrs. Ward, Bertrand and Dan, whose term had expired, were re-nominated and R. Shore received the fourth nomination.

The question of moving the secretary-treasurer's office, to either Milo or Queenstown or remain where it is will be voted on together with the Municipal park question at the same election, by the ratepayers. The councillors are now in possession of plans laying out the park. These plans have been furnished by Alberta's Town and Park expert, Mr. Seemour. The question which will be presented to the ratepayers will be "shall the council be empowered to spend \$3000 per year the next five years for improvement in the park?"

Mr. Hardwick, the rancher, presented an offer to the municipality to sell his lease south east of Milo to the municipality, which includes the lease running 17 years longer with some cultivated land, corrals and buildings, dams, springs, etc., for the sum of \$65,000. This lease could be used by the farmers in the Municipality to turn their young and surplus stock on during the summer. Mr. Hardwick's proposition was not received very favorably by the ratepayers and created quite a discussion. The general opinion seems to be that the price asked was too high. However, a motion was made and carried that the incoming council should investigate the matter thoroughly and make a report at the next annual meeting.

Wm. Durstun is reported sick with bright's disease at the Holy Cross Hospital in Calgary.

Majorville is to have an open air pavilion. Mr. Haskins, Majorville's enterprising postmaster and storekeeper, contemplates building an open air pavilion in connection with his store next summer. This will provide the Majorville sports with a place to take their best girl during summer evenings.

A farewell party in honor of Mr. and Mrs. George Hoerle, was given Saturday evening, by Mr. and Mrs. James Burk, at their home east of Milo. Many of the neighbors and old timers acquainted with the Hoerles when residing as homesteaders here, were at the party and had a fine time. The Hoerleys, who have been here visiting relatives this winter, will shortly leave for their home at Maple Creek, Sask.

Albert Dietz, one of Milo's well-to-do bachelors, who has been living in Calgary this winter is reported as having made a killing in oil stock. Others, who have speculated in wheat, are not quite so fortunate.

## DANE AND ARTHUR HIT CREST OF FUN WAVE

Sid-splitting Comedy, Entangling Situations and Great Cast Make "China Bound" Real Laugh Epic

That great comedy team, Karl Dane and George K. Arthur, will be at the Gleichen Community Hall, Saturday

## Town and District News

You will want to peep at the mysteries in the hall to-night—they're worth while.

Town Secretary M. Murray returned yesterday after spending about a week in Calgary.

Bert Stubbs returned to Gleichen this morning after spending two years at his home in Ontario.

On Monday evening Roger Deschamps and Louie Sather's autos tangled up at the Star Cafe corner.

Because of lack of heating facilities in the Mattoon, Ill., jail, the prisoners were freed during a recent cold spell.

The Ladies Circle of the United Church desire to thank all those who in any way contributed to the success of the "Jiggs' Dinner in the I. O. O. F. Hall, on Saturday evening, February 22nd, especially to Mr. R. A. Brown and Mr. J. Greer who so ably impersonated "Jiggs and Margie."

The school board has received a letter from J. A. Hornby recommending certain repairs at a cost of about \$200 be made to the school building and states that when these are completed it will not be safe for more than three years. Accordingly Chas. Thompson started the repair work last Saturday and will continue it each Saturday until completed. Thus the building of a new school will not be started this year.

Last night the Gleichen Midgits played the Calgary Juveniles in that city before a crowd of 2,000 that gave our kiddies "stage fright". The score proved 8-0 in favor of Calgary, the first 6 were scored before our boys began to recover from the big rink and crowd, but after that they put up a good game and had the Calgary fans rooting for them as they were so much smaller than the Calgary husky fellows.

March 1st, with a laugh producing vehicle that affords the widest range to their comic versatility. It is "China Bound," a Metro-Goldwyn Mayer feature, directed by Charles F. (Chuck) Reisner, famous builder of laugh pictures.

The story takes Dane and Arthur to China, one, Dane of course, as a stoker, and his little playmate as a lovelorn stowaway whose sweetheart heart is on the liner with her crabbed father and her maid. Josephine Dunn is the girl and Polly Moran, famous screen comedienne, is her maid. Polly is the long lost sweetheart of the stoker and through the stowaway they stage a reunion of the ship much to the disgust of Angus McAllister, the Scotch father, and the hard-boiled officer in charge of the "black gang" of the stoke-hold.

Sharkey and Eustace, or Dane and Arthur, land in the ships brig and on arrival at a Chinese port make their escape as coolies. They join the girls, but a bandit army is approaching and war is in the air. They are mistaken by the bandits for members of the gang, but finally are discovered as foreigners. Meanwhile the girls have been thrown into jail the bandits have rounded up all foreigners, and they too, are herded into the jail, among them Angus.

Reisner has made the most of a splendid theme for his comedy team and keeps his audience in side-splitting or rollicking laughter, from one well-timed moment to another, as the tale progresses to its inevitable comic finish.

The story is an original from the pens of Sylvia Thalberg and Frank Butler.

Polly Moran is creamingly funny as the traveling maid, a stoker's sweetheart, and contributes much to the laugh success. Harry Woods and Carl Stockdale as the hard-boiled officer and the Scotch father give an excellent account of themselves.

## Town and District News

March 15—St. Patrick's Tea by United Church Circle.

The main roads are said to be improving rapidly.

Curling started up again yesterday and the ice is in good condition.

Mrs. J. R. Davies attended the W. A. convention in Calgary last week.

The snow has all disappeared and the ground is drying up. It sure looks like spring.

When your friends visit you let the Call know who they are, where they are from and all about them.

Mrs. H. W. Marcellus spent last week in Calgary attending the annual meeting of the Rebbeckas.

The whist drive given by the Eastern Star ladies last Wednesday night proved enjoyable and successful in every way, there being a big crowd present.

Mr. Thos. Plante states that he saw the first robin of the season in his bird sanctuary last Thursday, Feb. 20th, and when he threw out feed to them they appeared quite at home and eat heartily.

Since Monday the Community Hall has been a busy place, where a big force was busy preparing for the opening of the Mid-Winter Carnival tonight.

The brick work on the Old Sun school was completed Monday and the departing bricklayers enjoyed a banquet that night in a local restaurant when songs and speeches were the order of the evening.

Ex-Mayor Lou Michael is said to have joined the Calgary millionaires and purchased a couple of houses here. Lou is a great exponent of his own town and has Manager Bill Taylor and Chas. Thompson up endorsing his latest acquisition.

Mrs. A. V. Cocks has received word of the death of her Uncle, Mr. C. E. Skinner at Chatham, England, who for 39 years was a member of the Chatham Town Council and a magistrate for 15 years. Also a member of the Masonic order, who conducted the burial services. The Chatham Observer devotes a column in describing the life and funeral of the deceased gentleman.

The Salvation Army Eventide Home is to be favored by a visit from Adjutant and Mrs. Southerland Steward Saturday next, who will be staying over the week end, and on March 4th Commissioner Hoggar, territorial commander will make his first visit and inspection of the institution. Commissioner Hoggar has taken over command of Canada West. He is also celebrating his 50th anniversary in the Salvation Army.

An ad. for heirs wanted in a Chicago paper caused no little concern among the friends of Dave Wilson, whose last known address was given as Gleichen. All were in hopes our "Dave" was to come in for a few million, but when seen he spoiled all the pleasant dreams by denying forthwith that he was the victim. Dave has enough trouble as a Grand Pa without being loaded down with paltry dollars.

In the neighborhood of \$40 was realized as the result of the whist drive given by Mrs. Wm. McConnell last Friday night in aid of St. Andrew's Church. A splendid luncheon was served and a very pleasant evening spent. Both bridge and court whist was played. In the bridge Mrs. MacCallum and Mrs. Brown won the ladies prizes and Messrs. T. H. Beach and E. Menard the gentlemen's. Mrs. W. H. James and Mrs. W. F. Ferguson won the court ladies prizes and the gentlemen's were won by Mrs. Downie and Mr. Gorrill.

Monday night a good crowd of old friends motored east to Mr. and Mrs. W. H. James residence as a surprise

party and spent a most happy evening with cards and social conversation. The occasion was "Kippie's" birthday and a genuine surprise. Mr. J. E. Ostrander presented him with a suitable gift and he replied in his usual fluent cheerful manner, re-calling early days in Gleichen. The ladies prizes were won by Mrs. W. P. Evans and Mrs. J. Ostrander and the gentlemen's by "Kippie" and his son Hugh.

A good bunch of local fans journeyed to Calgary Friday afternoon to witness the hockey game between the Calgary Bronks and the Drumheller miners for the senior championship of Alberta, among whom were Messrs. Marcellus, St. McKay, Wray, Moss D. McDonald, Digger McDonald, Bert James, Bert Robinson, H. Menard, Tom Johnston, Tom and Cam Brown.

The ladies of the Anglican Church held a most successful Whist Drive in the dining room of the Arrowwood Hotel, by kind permission of Mr. and Mrs. Horning, on Tuesday, Feb. 18th. The cards were much enjoyed by all as was also the dainty luncheon which was served at the conclusion. The prize winners were: Ladies high Miss McKinley, low Miss A. Horning. Gentlemen's high Mr. Bird, low Mr. Ralph Jones.

## ALBERTA MOUTH HEALTH CAMPAIGN

Alberta already occupies a very enviable position among the Provinces of Canada from the standpoint of matters of health and the education of the people in matters pertaining to their physical well being. Now it is proposed that the Canadian Dental Hygiene Council, working in co-operation with the Provincial Departments of Health and Education, the Alberta Dental Association and the Alberta Red Cross Society, will carry the gospel of preventive dentistry to every man, woman and child in a Province wide Campaign commencing February 17, 1930.

The most important time in the development of human teeth is before birth and during the first seven years of the child's life. Almost one hundred per cent. of the children and adults of today have decayed teeth and these are primary causes of most of the serious diseases. In fact we have given our teeth too little concern.

Preventive dentistry does not mean visits to the dentist's office. It means correct habits of living, balanced diet and proper attention to mouth cleanliness and oral hygiene. Speakers who can deal with these matters authoritatively will bring to the people of the Province what the scientists have discovered with regard to the importance of the care of the teeth of the growing child.

## CANADA CHOOSES LICENSE COLORE

The province of New Brunswick's 1930 automobile licenses will mark what is said to be the first use of a color scheme, using aluminum as a background; the numerals and letters will appear in crimson.

The nine provinces of Canada have the following color schemes for their 1930 motor vehicle license plates, according to reports received by the motor vehicle branch of the New Brunswick Department of Public Works and issued through the bureau of provincial information and tourist travel at Fredericton.

New Brunswick, aluminum background with crimson letters and figures; Nova Scotia, white background with red letters and figures; Prince Edward Island, white background with green letters and figures; Quebec, yellow background with black letters and figures; Ontario, white background with black letters and figures; Manitoba, blue background with white letters and figures; Saskatchewan, chocolate background with white letters and figures; Alberta, green background with white letters and figures; British Columbia, red background with orange letters and figures.

## IMMIGRATION AND UNEMPLOYMENT

(By John Glambeck)

An article under the above heading of "Immigration and Unemployment" was recently published in the Call. The writer points out that there are 3,000,000 unemployed in the U. S., 2,000,000 in Germany, between 1,500,000 and 2,000,000 in Great Britain, while in Canada there is a large army of unemployed in every big city at the present time, and that, in spite of the fact that both the States and Canada has been experienced a period of unexampled industrial growth and activity. The writer states, that in Canada the opinion prevails in many quarters that our unemployment problem is largely due to the influx of emigrants, but such a course cannot be advanced in case of Great Britain and Germany, nor in United States with its restricted emigration policy. What is the cause? What is the solution? The writer asks. The problem is a huge and difficult one and nobody yet has any solution, all must think and study and that is the sole reason for this article the writer concludes.

Now to any one who has studied our present economic and social system it is not very difficult to understand the reason for unemployment, nor the one and the only way to remedy it. As anybody knows our present economic system is based on profit. That is all industries, commercial enterprises and even farming are run and operated to make profit for the owners. When owners of railways, mines, shops, etc. have workers it is for the purpose of putting them to work and producing something that can be sold at a profit to the owners above the wages paid. Consequently when any new labor device that will require fewer workers and make the work of the balance more productive it is to the interest of the owners to install it.

Take the new farm implement, the combine, for instance. For years the wheat growers in the Canadian west have been compelled to send out a great army of men to help at harvest, paying those men, high wages. By using the combine most of these harvest hands become unnecessary and the farmers make more profit.

The displaced harvest hands, along with the displaced workers in every other industry, compose the army of the unemployed and I claim that as long as the present profit system prevails there is absolutely no solving of the unemployed problem. The one solution is pay to the workers more or all they produce, less cost of production, etc., and reduce the hours of labor so there will be no over production. In short we must change our present profit system to one for use or a co-operative commonwealth. Years ago, at the beginning of our present economic system, we were not faced with this unemployment problem. England, Germany, France, and other

modern, producing countries, could export their surplus products to backward countries who had not yet adopted the modern system of production. Today we find that the modern system of production has invaded every corner of the world and now, those formerly backward people, produce in their own countries what they formerly had to buy elsewhere. The Canadian farmer has had a taste of what this means this year, when, in spite of the wheat pool and expected higher prices, the Argentine wheat growers, having a lower standard of living, flooded the European market and forced prices down. It should be plain to anybody who will look into the question that when we have reached a point, in our economic development, where but little of our surplus products can be sold abroad and where the workers, no matter how much they produce, can only buy back to the extent of their wages that there must be over production and that unemployment must follow.

As I stated before unemployment cannot be solved under our present profit system, it must get worse from year to year until it becomes unbearable and those who are suffering under it will be compelled, for self-preservation, to arise and change it. In reality we have no over production but rather under consumption. The building trades are not idle because there are too many houses, but rather because the workers have no money wherewith to buy a home. Miners are idle not because people have too much coal, many a family freezes because they can not buy coal. Lumberworkers are idle not because the farmers and workers have all the buildings they need but the prices of lumber is so high and in the case of farmers they make so little profit on the grain and produce that they can not afford to build.

The workers in clothing factories, shoe factories, etc., are idle, not because the common people have too much of these things, but because there is not enough wages to purchase them. It is only a question of time when we will be forced to change our present profit system to one of co-operation, where every one who works will receive enough to satisfy all his wants and the hours of labor can be reduced until there will be no unemployed.

**Third Great West Canadian FOLK DANCE FOLK SONG AND HANDICRAFTS Festival at CALGARY MARCH 19 to 22**

Four days of lovely music and color, illustrating the Arts, Crafts and Song of the peoples of the prairie provinces—British, French-Canadian and European, with an American flavor of Cowboy songs.

Singers, Instrumentalists, Folk dancers from racial groups in the picturesque costumes of their country of origin.

Visiting Artists, including Isabelle Burnada, Selma Johansen de Coster (The Swedish Nightingale) and Charles Marchand, French-Canadian Folksinger.

Handicrafts organized by the Canadian Handicrafts Guild (Alberta Branch), Music and Folk dancing organized by the Canadian Pacific Railway.

N.B.—Those wishing to exhibit handicrafts should communicate with Mrs. J. J. Anderson, Secretary Alberta Branch, Canadian Handicrafts Guild, Le Marchand Apts., Edmonton, or Palliser Hotel, Calgary, Alta.

For illustrated booklet write the Manager

**Karl Dane "CHINA BOUND" Geo. K. Arthur**

WITH **Josephine Dunn** AND **Polly Moran**

**Dance After Show**

A riot of fun—or a funny riot—that's "China Bound." Pictures are too short when Dane and Arthur do their stuff as in "China Bound."

They laughed themselves into China and out again with many a laugh between.

Chinese soldiers started laughing when Dane and Arthur landed there... bandits took 'em by surprise... they died laughing.

In "All At Sea" they never left land. Chinese laundries are the same the world over... Karl Dane and George K. Arthur found out... in "China Bound."

What's a prison to Karl Dane? Give him a shovel and you'll see in "China Bound."

Laugh you way to the Far East with Dane and Arthur.

Pull up the gangplank on your gloom! We're "China Bound!"

## WORLD HAPPENINGS BRIEFLY TOLD

The department of national defence has ordered 16 new light aircraft for use in connection with training in the Royal Canadian Air Force, at a cost of \$85,000.

Most of 7,000 women employed on the clerical staff of the British civil service voted "no" in a ballot on the question of whether women ought to retain their jobs after marriage.

Overcome by poison gas as his sons were pulling him up a 75-foot well on his farm, near Raymore, Sask., Mike Grymalaski fell down the shaft and was dead when extricated later in the day.

The total cost of pensions in Ontario this year will be in the neighborhood of \$5,000,000, according to a statement made by Hon. Dr. Jamieson, chairman of the Old Age Pensions Board.

A total of 336,972 amateur radio receiving licenses were issued by the radio branch of the Department of Marine for the 1929-30 period up to the close of last year, according to figures made public. The total for the 1928-29 period was 296,926.

Formal request that the postmaster-general of Canada consider the early extension of the postal air mail service to Vancouver and other British Columbia points is contained in a resolution that has been unanimously adopted by the Vancouver city council.

Members of the Canadian Manufacturers' Association sailed from Halifax on the steamer "Lady Drake," to study the British West Indies regarding development of trade with Canada. The party will sail through the Indies as far as Demerara.

Toronto's general assessment has reached for the first time in the history of the city over one billion dollars and the population over six hundred thousand," said Assessment Commissioner W. G. Farley, in submitting his annual report to the city council.

## Private Legal Practice Forbidden In Russia

Barristers Doing Business Will Be Prosecuted For Fraud

A Moscow despatch to the New York Times said private legal practice in Russia is now a thing of the past.

At a barristers' meeting officially convoked it was decided to dissolve the collegium of advocates—that is to say close down the Moscow bar—replacing it with a "collective" under Communist management.

This collective would examine all applications for counsel and distribute briefs. Henceforth any barrister giving private consultations will be prosecuted for fraud. Several well known advocates have been excluded for the collective as bourgeoisie.

## From the River Jordan

Water Taken From Sacred Stream Is Used At Christening

Water drawn from the river Jordan, famous Biblical stream, was used in a baptismal service in Wesley United church at Saskatoon, when the infant son of Mr. and Mrs. L. O. Duncan, was christened Bruce Langford, by Rev. J. W. Pratt.

Mr. Duncan got the water in the Holy Land, in 1925. It was kept by his mother in England, until recently, when it was shipped to Saskatoon. The water was drawn from the Jordan just east of Jerusalem, where John the Baptist used to baptize.

The child was baptized in his father's christening robes, which in turn were made from a confirmation dress of Mr. Duncan's mother.

The population of the earth is said to double itself every 25 years.

**CONSTIPATION COMPLETELY GONE**

Write Mr. W. Walker, Thousands say constipation, indigestion, gas and overeating with "Fruit-Lax" completely cleared this magic. Nervous, heart quiet. Get Fruit-Lax from drug today.

W. N. U. 1823

## Important Factor In Airplane Of Future

Manufacturers Turning Their Attention To Building Safer Machines

Much is expected of what has been popularly described as a "fool proof" aeroplane that has come into existence with an award of a prize of \$100,000 following an exhaustive series of tests at Mitchel Field, outside New York City. The conclusion of these tests and the awarding of the prize is held to mark another forward step of great importance in aviation. Quantity production of high-speed machines was the natural consequence of the solo flight of Charles Lindbergh, from New York to Paris, and it is only within a comparatively recent period that aeroplane manufacturers have turned their attention to the element of safety as an outstandingly important factor in the aeroplane of the future.

There has been no divulgence of the details of the performance of the winning machine beyond the fact that it has a minimum gliding speed of 38 miles an hour. That a machine can loaf along at what is a medium road rate for a motor car indicates what amazing advances have been made in the safety of aeroplane operation. And it may be assumed that once the aeroplane is so made that its operation is approximately as safe as the motor car, people will take to the sky in much larger numbers than at present.—Regina Daily Post.

(By Annebelle Worthington)

Chic dressmaker details are smartly evident in printed sheer velvet tiered model in striking Independence blue coloring.

The swathed hip with crystal buckle emphasizes the higher waistline so important in the mode. The irregular closing of collarless neckline is unusually becoming. A buttoned applied trimming band holding jabot frill, denotes new smartness.

Sleeves have darts below elbows. The circular tiers away gracefully each time wearer moves.

It proves that good taste is not expensive, for here is a Paris model that you can copy exactly at the cost of the fabric, and have the added advantage of choosing a flattering colour.

Design No. 3015 comes in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

It is exquisite in plain transparent velvet in dahlia purple for afternoons and informal evenings.

Black crepe satin is dignified for all-day occasions. It is very effective made of the dull surface with the tiers displaying the shiny surface.

Canton crepe in vintage red, army blue crepe de chine, and crepe Elizabeth in Marron Glace are outstandingly smart.

Pattern price 25 cents in stamps or coin (coin preferred.) Wrap coin carefully.

## Saskatoon's Progress

All Evidences Point To Rapid Growth During Past Year

The City of Saskatoon made substantial progress during 1929. Its finances are in excellent shape. A large proportion of current taxes have been paid than ever before, which includes taxes on forfeited properties, and the net outstanding taxes amount to \$800,000, which is about \$1,000,000 less than in 1928. There was an increase of about 800 pupils in the schools. The electrical output increased about 30 per cent.; the sale of city owned real estate amounted to \$130,000 and passengers carried on the street railway showed a gain of 15 per cent.

## Recipes For This Week

(By Betty Barclay)

### ORANGE OMELET

(Serves 4-6 Persons)

6 eggs.  
2 tablespoons powdered sugar.  
1/2 teaspoon salt.  
1/2 tablespoon cornstarch.  
2 teaspoons lemon juice.  
1/2 cup orange juice.  
Sliced oranges for garnishing.  
Extra powdered sugar.

Separate egg yolks from whites. Mix together the sugar, salt, cornstarch, lemon and orange juice. Beat the egg yolks light and add this mixture to them. Beat the egg whites stiff and dry. Fold in the first mixture and turn into a well-oiled omelet pan. When done garnish with the sliced oranges sprinkled with the powdered sugar and serve.

### CABBAGE STEWED BROWN

Stew one chopped onion in one spoonful of soup fat and cook it with half spoonful of granulated sugar until golden brown. Add one glass of half vinegar and half water, a head of white cabbage shredded like noodles, after removing the stalk and thick veins, and some salt. Stew tightly covered for several hours, stirring frequently and occasionally adding some water or weak beef broth. The cabbage must be pleasantly piquant. It should taste sweet-sour and be golden brown and glossy. If desired, a little flour can be dusted over and mixed with it half hour before serving.

### The Greatest Help

Have we not often forgotten the real meaning of the verb, "to comfort"? It is "comforto"—to strengthen much. He who increases the power to bear does even more than he who decreases the burden.

## A Remarkable Exhibition

Paintings By Inmates Of Mental Hospitals Seen In Paris

Art or madness? Few of the visitors to the Max Bine Gallery, in Paris, were able to tell, when they looked around the walls. Many of the pictures were scarcely distinguishable from the most imaginative work of present-day artists, while others showed such removal from the ordinary laws of composition as to belong in a class by themselves.

It was an exhibition of the works of lunatics, inmates of various insane asylums. Some of the exhibitors are classed as only mildly insane, while others at times reach the violent stage and have to be put in strait-jackets. Their art is a pastime with them, and their mental state is not due to their art.

It was one of the most extraordinary exhibitions ever held here. It was called "Artistic manifestations of the brain-sick," and was organized by Dr. A. Marie, alienist, the Marquise de Ludre-Frolois and M. Bine. Artists and art lovers took a keen interest in studying the works.

The exhibition was intensely morbid, and what manifestations of mania and art were not made by the artists themselves, the organizers supplied in the form of photographs and old engravings showing Bedlam at its worst, including German and other European mad houses and Middle Age torture methods once applied against the insane.

One of the most fascinating works of art, as shown by the catalogue, was withdrawn from the exhibition at the last moment.

It was an imaginative work of a three-toed mammal in a primeval forest swarming with life. Under the drawing the artist, now sane and holding an important position in public life, had written: "Where was I?—On what planet?"

## Manitoba Fruit

Commercial Fruit Growing Now Placed On A Profitable Basis

Fruit growing on the plains of Manitoba is to be placed on a profitable basis, according to the marketing report tendered by Mrs. S. M. Loree, of Carman, Manitoba, at the annual convention of the United Farmers of Manitoba, recently. Prospective fruit growers will be afforded accurate statistics on the yields and hardness of crops. Demonstration orchards in various parts of the province were established some time ago, said Mrs. Loree, but the reorganization work of the coming spring is expected to yield definite results. Apples, plums, strawberries, raspberries and currants are now produced commercially by about a dozen growers.

## B.C. Liquor Profits

Profits from the Government sale of liquor in British Columbia for the full year ended September 30th, amounted to the record figure of \$4,451,225. Purchases amounted to \$18,164,900 which, with an estimated sale of \$2,500,000 worth of beer, would put the total of all liquor sales at \$20,664,000.

## Winnipeg's Growth

There were 774 new dwellings constructed in Winnipeg during last year with a total value of \$3,679,400.

## MAY GO TO SENATE

Mrs. Gordon Wright, of London, Ont., prominent Canadian prohibitionist, officer of the National Council of Women, and sister of Hon. Newton W. Rowell, K.C., who, according to Ottawa reports, may be one of the first women appointed to the Senate.

**OPEN SORES**

MEAL IN QUICKEST TIME KNOWN

"Sores on lips, cheeks, for months. Doctors failed to heal. Then 'Sooths-Saive' healed them in few days." Jules Simard, "Sooths-Saive" healed sores, ulcers, boils, burns, scalds, eczema, like magic. All druggists.

## A Valuable Discovery

Carbon Monoxide Menace Can Be Eliminated Claims Professor Of Chemistry

The announcement from Johns Hopkins University that a means has been discovered to eliminate carbon monoxide from motor exhausts comes at a moment when the health department of nearly every large city is concentrating on this problem. Health officials of New York City recently began analyses of the air in the city's streets, seeking the carbon monoxide content, as a preliminary to some kind of a protective or remedial campaign.

Here and in other cities was the mounting record of hundreds of deaths annually, and authentic medical testimony that these accumulating poisons were fouling the air and endangering public health.

Dr. J. C. W. Fraser, Johns Hopkins professor of chemistry, discoverer of the method which makes a closed garage safe for democracy, has for many years been known as one of America's foremost authorities in the field of catalysis, and it was by the use of a catalyzer that he learned how to make carbon monoxide behave. A catalyzer, the chemists explain, is a manager and introducer which brings together aloof elements.

Carbon monoxide, issuing from a motor exhaust and occasionally killing somebody, needs just a touch of oxygen to become as harmless as a church warden. This oxygen was available in the air, but wasn't even on speaking terms with carbon monoxide.

Dr. Fraser's catalyzer lured an atom of oxygen from the air, teamed it up with the carbon monoxide and the resulting carbon dioxide was safe for breathing. One may close the garage doors, turn on the engine, go to sleep under the car and live to tell the tale.

The catalyzer—and Dr. Fraser does not tell what it is—is like the old time bartender who never took a drink. It sets up new chemical equations, but never takes any part in them.

## Suggests Out-Door Museum

Would Be Attraction In Western Canada To Tourists

An out-door museum extending along the rights-of-way of railway lines in Western Canada in which concrete casts of the skeletons of dinosaurs, mammoths and mastodons would stand has been suggested by a member of the National Museum staff, Ottawa. The creation of such an out-door museum would serve as a monument to strange beasts which roamed parts of Canada millions of years ago, the official thinks and would, besides, be unique as an attraction to tourists travelling the railways.

## The Rock Of Gibraltar

Is Worth More To Britain Than Any Kingdom In Europe

England has not a foot of land on the continent of Europe, excepting Gibraltar, which was captured by the British in 1704; but every Englishman that sails into the harbor of Gibraltar, and from the deck of the vessel looks up the sloping side of this rock, three miles long, feels and knows that it is worth more than any kingdom on the continent. He sees at a glance that the power which holds this holds the Mediterranean. He sees how impregnable it is. He sees the line of granite wall stretching along the water from the perpendicular eastern face around the western side and to the northern face, surmounted by tremendous guns, pointing in every direction. From the deck of a ship in the bay is the best place to get a good view of the fortress. The town consists of two parts, both situated on the western side near the water. The residence of civilians for business purposes is on the northerly end of the western side.

## The Ex-Kaiser's Fortune

Answers Given By Soothsayer Seemed To Disappoint Him

From his exile in Doorn, Holland, ex-Kaiser Wilhelm asked the Berlin soothsayer and medium, Patter Johannsen, to come and tell his fortune and let him know if there was any chance of his returning to Germany. The ex-Monarch wanted to know also whether he would die a natural death, and whether, in case of his return to Germany, he would be going as the Kaiser of his native land. Johannsen is pledged to secrecy, but he intimated that the answers he was forced to give the Kaiser "disappointed him greatly." They were dictated to him "by unseen powers" while fingering a garment worn by the ex-Kaiser, and studying his handwriting.

## Thousands Pay Radio License

Prairie Provinces Are Well Up In Number Of Owners

For the first time since radio broadcasting commenced, more than 300,000 owners of receiving sets in Canada have paid the annual license fee of \$1 this year. Of these just half are located in Ontario and over 40,000 are in Toronto. Not all the people who own radio sets pay the dollar, in fact, it is known thousands dodge the tax. By provinces the number of licensed receiving sets is now as follows: Ontario, 146,662; Quebec, 49,790; Prince Edward Island, 509; Nova Scotia, 8,893; New Brunswick, 6,141; Manitoba, 18,728; Saskatchewan, 22,467; Alberta, 14,332; British Columbia, 25,981.

## Prairies To Exhibit

The deputy minister of agriculture for the three prairie provinces met recently in Saskatoon to arrange for an exhibit from the prairies at the world's poultry congress in London next summer.

The coast of Annam, on the China Sea, is one of the stormiest in the world.

## Returns From Extended Tour

Sir John Aird Expresses Views On World Markets

Sir John Aird, president of the Canadian Bank of Commerce, and envoy to the Pacific relations conference, has returned after a four months' trip to Egypt, the Orient, France and Great Britain. He remarked sacrifices must be made by all the component parts of the British empire if the goal of intra-empire trade is to be realized. Trade between the Orient and Canada should be greatly stimulated and would be equally beneficial as a result of the Pacific relations conference. China and Japan were near an amicable understanding of their difficulties in Manchuria. Great Britain must retain a great commercial fleet, these were some of the convictions expressed by Sir John on his arrival at Toronto.

"Trade between Canada and Japan and China has been growing steadily for the past few years," he said. "The result has been mutually beneficial. Japan is regarded highly as a wheat consuming country and our produce is regarded highly in both Japan and China. Japan is also a good market for machinery and clothing."

## Honor Canadian Author

Tablet In Memory Of Arthur Hunt Chute Unveiled

"That Canada may remember Arthur Hunt Chute, author, soldier, gentleman, who gave the Canada of his day a realization of its heritage and a vision of its empire of the north. On September 22, 1923, he was killed flying northward."

The above is the tribute appearing on a bronze tablet presented to Acadia University, Nova Scotia, by Toronto editors in memory of Arthur Hunt Chute, who was killed when the plane in which he was making a trip through the north crashed in Luke Manitoba. The tablet was unveiled by R. Napier Moore, Toronto magazine editor.

## May Create New Market

Should a trial ton shipment of British Columbia certified potatoes carry satisfactorily to Buenos Aires and give good results, a big market for this province's certified seed potatoes will be obtained in South America, a quotation on 600 tons of certified seed of the Burbank variety having already been requested.

## Summerland Fish Hatchery

The Government fish hatchery at Summerland, B.C., is doing a great deal to keep the nearby lakes stocked with trout and other fish, making Summerland an attractive place for vacationists.

# Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

**WINDOLITE**

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN  
YOUR LOSSES  
BY INSTALLING  
WINDOLITE

USE  
WINDOLITE  
IN  
BROODER  
HOUSES  
LAYING PENS  
DAIRY BARN  
SUNROOMS  
ETC.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

# Ottawa Will Be Asked To Lend Assistance In Unemployment Difficulty

Winnipeg. — The government of Canada will be approached by a delegation from western Canada, seeking cessation of unemployment difficulties, it was decided at the closing session of a two-day parley representative of cities, provinces and municipalities in the west. Among the deputation's requests will be formation of a scheme of unemployment insurance and decision by the Dominion Government to bear a share of unemployment relief expenditures.

An inter-provincial and Dominion conference should be called at the earliest possible moment for consideration of some Dominion-wide scheme of unemployment insurance, the conference decided. It was pointed out that a Dominion commission had approved the scheme, but that law officers of the Crown had opined that under the British North America Act the Dominion Government cannot inaugurate such a plan.

In the opinion of the meeting, the Dominion should bear one-third of unemployment relief costs, on the basis of agreements entered into in 1921 and 1922, and confirmed in 1924; provinces and municipalities, or cities would divide equally the other two-thirds. The Dominion administration has contended that their stand was based on the agreement of 1927, by which unemployment was labelled a provincial matter, but the conference held that the 1927 situation was not parallel to that now existing.

Every city from Lake Superior to the Pacific coast was represented and government delegates to the parley attended from British Columbia, Saskatchewan and Manitoba. Unable to send a representative, due to the opening of the Alberta legislature, Premier J. E. Brownlee telegraphed to the conference that Alberta would support the meeting's decision. The Dominion Government was not represented, but Hon. Peter Heenan, Minister of Labor, stated that he would bring the conference's requests before the entire cabinet.

Prime Minister W. L. Mackenzie King has stated that the Dominion Government would be prepared to consider the unemployment question, with a view to remedial measures, if the provinces of Canada join together in admitting they are unable to cope with the problem.

Delegates will return to their respective areas and ask the bodies they represent to agree that emissaries be sent to Ottawa. The delegates will then notify Mayor Ralph H. Webb, Winnipeg, of their intention, and he will set the date of the pilgrimage to the capital. Governments of the four prairie provinces, as well as of Ontario, will be requested to despatch representatives as members of the delegation.

## Wheat Pool Conference In London, England

Canadian Pool Representatives Meet Rt. Hon. J. H. Thomas, Lord Privy Seal

London, Eng.—Preliminary discussions in which the threats of the conference of Winnipeg, last year, were taken up, was heard recently between Rt. Hon. J. H. Thomas, Lord Privy Seal, and representatives of the Canadian Wheat Pool, on the question of regulation of Canadian grain exports to Britain and establishment of grain elevator in this country. A. J. McPhail, of Regina, pool president; W. A. McLeod, of Winnipeg, publicity director, and D. R. McIntyre, eastern sales manager, attended.

The meeting was in Mr. Thomas' room in the Parliament Buildings.

### Pictures Are Proof

Toronto.—Helge Borup, a young Dane, who in three years became a successful farmer in Northern Ontario, has left to spend a holiday in the land of his birth, and in his baggage will be 5,000 feet of film which he will show in many parts of Denmark as pictorial proof that splendid opportunities exist for those who are not afraid to play the part of pioneer.

### Prince Studying South Africa

Cape Town, South Africa.—Notwithstanding the fact that during his stay in Cape Town, the Prince of Wales is spending the nearest thing to complete holiday that he has enjoyed in years, he is devoting considerable time to increasing his knowledge of South Africa, her main interest and problems.

W. N. U. 1823

## Great Future For Canada

Sir Esme Howard Refers To Dominion's Envyable Position

Ottawa.—A suggestion whereby Canadian trade may be enlarged with the West Indies, a tribute to Hon. Vincent Massey, Canadian minister at Washington, and an expression of confidence in the future of this country were the features of an address delivered before the Canadian Club here by Sir Esme Howard, British ambassador to the United States.

With regard to the Canadian minister at Washington, the British ambassador said that from the day Mr. Massey was appointed to this there had never been a shadow of any sort between them.

"We have discussed matters of common interest and matters of all kinds so freely that we have become friends and almost as brothers. But I should like to say this, that the establishment of the Canadian legation at Washington, so far from creating difficulties for the conduct of the affairs of our British Commonwealth, as some persons supposed, has on the contrary been a real help and assistance in the conduct of those affairs in the United States."

Expanding his theme on Anglo-American relations, Sir Esme pointed to Canada's enviable position in having on its frontiers no hostile neighbor.

"Some think that the north geographical situation of Canada is a drawback," he said. "But I don't feel so sure about that because it ensures you for ever from the danger of the problem of mixed races, which is a most serious one in southern countries; and it ensures you also from the relaxation of mind and muscle which often is the result of too constant contact with the sun god. You are endowed with thousands and thousands of square miles of fertile plains, with millions of horsepower of electricity waiting to be harnessed, with lumber and wood pulp almost incalculable, and lastly with a wealth of mineral deposits which have yet only just been scratched. You have all this and you have also the unspeakable blessing of political security without fear from attack from without."

"Who are your neighbors? On one side the North Pole, whose bears are not likely to prove a danger to this estate; and on the other side a great and friendly country, with whom you have had for over a century an arrangement by which armaments were laid aside and the frontier line was left almost as free from defenses as those between one state and another of the United States."

## Authorities Firm On Mennonite Question

Canada Will Not Permit Entry During Winter Months

Ottawa, Ont.—The attitude of the Canadian authorities with regard to the admission into Canada of the 6,000 distressed Mennonites in Germany is unaltered, and no permission will be given to bring them to this country during the winter months. This was stated by officers of the immigration department here. In the spring the department will give consideration to the case of these Mennonites, but no special privileges will be extended to them. Any action taken will be in conformity with the immigration laws and will be governed by the agricultural requirements of Canada then.

### Motorist Was Rewarded

Ottawa, Ont.—Wilfrid Lebel, young Ottawa motorist, brought a party of skiers home from the Gatieneau Hills when their car broke down on Sunday. He was surprised when members of the party asked to be dropped off at Government House. He went home and forgot about it until he received a letter of thanks from Her Excellency Viscountess Willingdon, accompanied by a handsome bouquet.

### B.C. Honors Pioneer Women

Victoria.—The legislature of British Columbia, in its opening ceremonies paid tribute to the pioneer women of the province, who had helped lay the foundations of Canada on the Pacific. A dozen pioneer women occupied seats on the floor of the House, and received tributes on behalf of those they represented, the government and opposition.

## Copy Was Clever Forgery

Expert Investigated So-Called Draft Of U.S. Declaration Of Independence

Toronto.—Faint pencil marks discovered by a hand-writing expert left no doubt that the so-called draft copy of the United States Declaration of Independence, now in Toronto, was a hoax, says the Mail and Empire in a news story.

"One of the cleverest forgeries ever committed," said the expert when he had completed his investigation. A powerful magnifying glass brought into evidence lead pencil markings about the strokes of the writing, says the paper. These markings indicated, the expert said, that the signature had been carefully drawn then inked in.

## MAY EFFECT BIG REDUCTION IN NAVAL STRENGTH

London, Eng.—Rt. Hon. A. V. Alexander, first lord of the admiralty, told the House of Commons that Great Britain's cruiser strength in naval estimates for the next ten years would depend on the results of the Five Power Naval conferences.

Asked what increase or decrease for the next two five-year periods of the naval estimates would result from fixing the number of cruisers at fifty, he replied: "There are at present 54 British cruisers built, and four others in an advanced stage of construction."

"The effect on the British estimates of fixing the total at fifty cruisers depends on the size of the cruisers laid down and the type of the cruisers built to replace those that become obsolete."

"The decision on these questions depends on the conclusions of the naval conference."

According to figures that Mr. Alexander gave to another questioner, the saving in the British naval estimates for the next six years would aggregate more than \$52,000,000, if replacements of battleships as provided in article 20 of the Washington Treaty were deferred until 1936.

Mr. Alexander also told a questioner that decision as to proceeding with the three submarines remaining on the British 1929 naval program would be taken after the London conference had been concluded. The program originally provided for six submarines but three of these were later cut out.

The recent cancellation of two British cruisers was of no material significance, Mr. Alexander told a questioner who asked the reason for the abandonment and the effect of the decision on the unemployment situation.

"The suspension of work on these ships," he said, "was decided upon by the Government on July 1st, for reasons of high policy fully set out in a statement the prime minister made in the House of Commons, Jan. 14. As very little work had been done on these ships on that date the recent decision to regard them as cancelled is of no material significance and was taken in connection with the framing of the navy estimates."

The first lord of the admiralty said it had not been necessary to reduce dockyard employment in consequence of stopping work on these and other ships.

## WILL LEAD PROGRESSIVE GROUP

H. C. Nixon, who has been selected to lead the Progressive group in the Ontario House during the coming session.

## Manitoba Beekeepers Meet In Winnipeg

Delegates Discuss Betterment Of Conditions Which Are Already Excellent

Winnipeg.—Manitoba beekeepers in the 23rd annual convention at the Royal Alexandra Hotel, discussed ways and means of bettering the already excellent conditions, under which this province holds a three-year record in the Dominion for first grade granulated and extracted honey. The report of the secretary, L. T. Floyd, gives Manitoba's entire crop estimate at 6,899,339 pounds of honey, with an average of 144 pounds per colony. There are 2,856 apiaries and the spring and fall count of colonies rates at 47,595 and 42,726 respectively. W. D. Wright, of Souris, Manitoba, representing the district west and south of Brandon, from whence the finest grades come, was congratulated upon winning Dominion sweepstakes this year with practically all the prizes in the classes mentioned during the last three years.

Roy Mullen, of Myrtle, was another outstanding beekeeper, having obtained 28,000 pounds from 100 colonies of bees.

## Farm Home Destroyed

Father and Daughter Die From Burns Received In Fire

Kerrobert, Sask.—Burned terribly from neck to knees on both the front and the back of his body, through his heroic efforts to save his children, Lester Matters, Tramping Lake farmer, died in the Kerrobert hospital. He had been there for 24 hours, in intense pain.

His injuries were received when fire practically destroyed his house following an early morning kerosene explosion, nine miles west of Tramping Lake. He and three children sustained burns in the explosion, one little girl, Nellie, aged 14 years, having succumbed to her injuries shortly after admittance to the hospital.

### Suggests Help For Byrd

New York, N.Y.—Dr. Howard T. Barnes, of McGill University, has suggested that chemicals might be used to hasten the break-up of the South Polar ice pack if Admiral Byrd desired it. The work would be done, Prof. Barnes said, by forcing one vital break in the pack at the key point and the manoeuvring an actual shifting of the ice mass.

### "JAMAICA SUGAR"

They say that little girls are made of sugar and spice and all that's nice. This can truly be said of this little picnican because she belongs to the West Indies, where spice and sugar grow. Perhaps she is a little shy because the lady who took such a fancy to her was a very distinguished visitor to her home island. Both, Her Excellency Lady Willingdon, and the Viscountess Willingdon, Governor-General of Canada, were highly delighted with their cruise through the Spanish Main. This photograph was taken on board the Canadian National Steamship "Lady Somers."—Canadian National Railways Photograph.

## Canadian Scouts Contingent

Governor-General Willingdon Thanks All Those Who Helped To Make Jamboree a Success

Ottawa, Ont.—Success of the Canadian Scouts' contingent who took part in last year's jamboree, in England, was due in large measure to the generous aid of Canadians, said the chief scout for Canada, His Excellency the Governor-General.

"To the generous subscribers in all parts of Canada to the special fund I personally raised for this purpose," said Viscount Willingdon, "I wish to express very grateful thanks, and also to the various individuals who subscribed sums for individual boys, which largely increased the numbers of our contingent. I wish to thank, too, all members of the executive of the association here at headquarters, for their loyal, devoted work, very particularly the members of the jamboree committee, who, under the chairmanship of Colonel Snow, made all the arrangements for this undertaking."

## UNEMPLOYMENT ASSOCIATED WITH POOL POLICY

Winnipeg, Man.—The Canadian wheat pool's policy of holding wheat for higher prices has helped to create the serious unemployment situation as it exists in Canada, Mayor Ralph H. Webb, of Winnipeg, stated recently. His comment made at the western conference on unemployment from the presiding chair, drew pronounced opposition from several delegates.

"I have not attacked the wheat pool in any shape or form," contended Mr. Webb in answer to criticism of his stand. "I am commenting only on the pool's present policy which the pool has a perfect right to practice. I hope it proves to be right."

"Hundreds of thousands of men have been laid off by the railways as a result of the pool's holding policy," estimated the Winnipeg mayor in his first resume of the unemployment situation. He mentioned that the facts that the 1928 crop was not yet paid for, and payments on the 1929 crop were yet to come, as additional items tending to cause unemployment.

Canada should turn an eye to the United States, where "holding policies" have been directed in vain against Great Britain, Mr. Webb believed. He mentioned futile efforts of the United States to hold up Britain on beef, oil, cotton, rubber and tobacco, and resultant British moves to develop other resources.

Australia and the Argentine have quadrupled their wheat yields within nine and seven years respectively, the mayor held; Manchuria was producing 24,000,000 bushels where no wheat was grown six years ago; India had doubled her wheat yield in six years. Italy and France, the former never a wheat-producing country, "were now meeting almost all domestic requirements," he said, "and Germany—ever an importer, was now exporting wheat to Britain."

Subsidized grain-growing, with 4,000,000 or 5,000,000 acres, put into new production in Britain, would be the result of bucking the British, Mr. Webb forecast.

"We may find that the government has had a lot to do with the present policy," stated Mr. Webb, referring to the wheat pool's stand, "and that may not bear very close investigation."

Mayor John W. Hair, of Saskatoon, immediately disassociated himself from the "attack on the wheat pool made by Mayor Webb." He mentioned that Saskatoon is proud of being the centre of Canada's greatest pool province and mentioned that he considered the wheat pool had done far more to create employment than to cause unemployment.

# General Move Is Made To Check Transactions Of Brokerage Firms

## Diver Found Dead

Heroic Attempts To Effect Rescue Alleviated In Failure

Quebec, Que.—An unofficial but probably accurate report received here, stated that the medical examination on the body of Peter Trans, diver, showed he had been frozen to death during his three day immersion in the icy waters of Riviere Aux Outardes.

Montreal.—The Ontario Paper Company's office here announced the death of Peter Trans, diver, who was submerged for three days all but one hour, at their plant at Pointe Aux Outardes, on the Outarde River, Gulf of St. Lawrence.

Trans, who was brought to the surface after divers had cut away a portion of the coffer dam that was holding him imprisoned, was dead when taken from the water, the company learned in meagre reports from the scene. Their doctors were holding an examination to decide the cause of death and the time at which the diver succumbed.

The three-day fight to keep the man alive and rescue him from his awful situation thus ended in failure. Faithful and constant maintenance of pumps to send a current of air through his helmet, an aeroplane dash through storm and snow, and diving by inexperienced but willing volunteers all aided in making the story of his imprisonment 20 feet under water an epic of the north.

## World Grain Show

Manitoba Agricultural Societies Urged To Take An Interest In Big Event

Winnipeg, Man.—An appeal to all societies to arrange at once for representation at the World Grain Show, at Regina, in 1932, was made by J. H. Evans, deputy minister of agriculture for Manitoba, in an address before the agricultural societies convention recently.

Every society in Manitoba should be represented at the show, said Mr. Evans. He rejoiced at the interest manifested by junior seed growers in the production of better seed.

### To Speak Over Radio

London, England.—Lady Astor, Conservative member of the House of Commons, will broadcast over radio to Canada and the United States within about a week. Her address will be designed primarily for women and will urge them to continue their efforts for world peace.

## SUNDAY SCHOOL LESSON

FEBRUARY 9

### WARNING AND PROMISES

Golden Text: "Every tree that bringeth not forth good fruit is hewn down, and cast into the fire."—Matthew 7:19.

Lesson: Matthew 7:1-29.

Devotional Reading: Proverbs 2:1-8.

### Explanations and Comments

The Golden Rule, verse 12.—All things therefore whatsoever ye would that men should do unto you, even so do ye also unto them. The context shows the meaning of the "therefore": since God is so good to us, we must be good to others. "With these words Jesus closes up the teaching of these chapters," said Martin Luther, "and ties them all up in a little bundle." For this is the law and the prophets—the two collections into which the Jewish writings were divided. "Perhaps to a certain extent this was a current phrase, equalled all that was necessary; but, no doubt, seriously meant; therefore it may help us to understand the statement in verse 17, 'I came not to destroy, but to fulfil.' The Golden Rule was Law and Promises only in an ideal sense, and in the same sense only was Christ a Fulfiller."

Distinguishing False From True Leaders, verses 15-23.—Beware of false prophets, warned the Master. They come to you in sheep's clothing, disguised as honest teachers, but inwardly they are ravening wolves, rapacious workers of evil. The lamb or sheep was the symbol of innocence or harmlessness; the wolf, of all sorts of evil. "It was a time of religious excitement; the force of custom broken, the deep fountains of the soul bursting forth; witness the crowds who followed John and Jesus, and the significant saying about the Kingdom of Heaven suffering violence (Matt. 11:12). Such times call forth true prophets and also spurious ones, in religious sympathy with prevalent enthusiasms, but bent on utilizing them for their own advantage in gain or influence, men of the Judas type."—A. B. Bruce.

How shall the imposters be recognized? By their fruits, said Jesus. Character is revealed by conduct.

Winnipeg.—Across the prairie has sounded repercussions of the arrest of 10 Toronto brokers on charges of conspiracy to defraud. In Manitoba, Alberta and British Columbia, developments occurred in the move to check up on brokerage house activities throughout the Dominion.

Manitoba took the most drastic action of the day in the West, attacking bank accounts of unnamed brokers and adding to the list of companies under survey by province-appointed auditors. Early in January, the Manitoba Government initiated an audit in the Winnipeg office of Stobie Forlong-Matthews, Limited, and Solloway, Mills and Company, Ltd.

Voluntary action was taken, it was pointed out, because of the uncertainty which at present exists in the stock brokerage trade, and, because at present there was no means of ascertaining the exact status of affairs.

Attorney-General W. J. Major, K.C., refused to name the firms whose bank accounts had been tied up at the order of the municipal and public utility commission, and would not state into what new offices auditors had been ordered. As yet, no action has been brought against any Winnipeg firm or branch by provincial authorities.

At Vancouver, following a special meeting of members of the Stock Exchange, an order was issued to Solloway-Mills and Company, Ltd., Stobie, Forlong-Matthews, Ltd., to cease from trading on the local market.

Traders for Solloway-Mills were withdrawn by the company from the floor of the Calgary Stock Exchange. It was denied that any suspension had been ordered, and affirmed that the move had been voluntary.

Attorney-generals of the western provinces are unanimous in their willingness to co-operate toward joint action by various provinces of the Dominion looking to uniformity in legislation. British Columbia, Alberta and Manitoba, have agreed to attend a national conference when and if it is called. Saskatchewan, though in accord with the idea, will not be able to attend a parley, owing to the coming session of the legislature.

At Calgary, Isaac W. Solloway and Harvey Mills, heads of the Solloway-Mills' organization, in police court appear at preliminary hearings on five charges of fraud and conspiracy.

## King Alfonso's Revenge

Report Says Defeat Of Rivera Is Triumph For Spanish Monarch

London, Eng.—The London Daily Express, under the heading "King Alfonso's Revenge," printed an article by its special correspondent at Madrid, H. J. Greenwald, purporting to give the "secret history of the present upheaval."

The writer said: King Alfonso accepted General Primo de Rivera until one day, about three years ago, there was a dramatic scene in the war office.

"The king had motored from San Sebastian to Madrid, but when he was going through mountains a posse of artillery officers held up the royal cars in a pass known as the Lions' Gorge. The king heard their grievances concerning delayed promotions, and promised them redress."

"When he arrived at Madrid he confronted his dictator. I was in Madrid at the time, and my information is inside information. There was a stormy meeting during which the dictator told his king that unless the monarch accepted his advice, he, Primo de Rivera, would declare himself the first president of the first Spanish republic."

"The king accepted the ultimatum, and since has bided his time. Now he has once again obtained the upper hand."

## Endurance Test a Success

British Dirigible In Air For Fifty-Three Hours

Cardington, Eng.—The dirigible R-100 returned to her home port after a successful endurance flight lasting 53 hours.

The giant airship during that time flew a zigzag course over the southern part of England, crossed the channel to the Scilly Islands, flew back over Plymouth, the Isle of Wight, Dover, the Southeastern coast ports and once again over London. She started in misty weather and arrived home in a mist.

### Christmas Cheques for Christmas Money

The contrast between the curling rink and skating rink is now remarkable. The covered rink for the curlers is in good condition while the uncovered skating rink is wet and bare in places.

Richard Jack, famous English painter; and Olive Carey, baritone interpreter of English folk songs, recently left Saint John on board the S.S. Montrose. Mr. Jack has spent the summer and autumn in the Canadian Rockies and is taking to England a large number of canvases depicting mountain scenery. Mr. Carey appeared at the English Musical Festival at Toronto last November and has toured the entire Dominion with the folk dancers, terminating with a concert at Saint John.

Captain J. Gleiden and Captain G. Stedell, two British officers, are making a 6,000-mile trip, coming and going, from London to Quebec, via Saint John, to take in the Frontenac Winter sports at the Ancient Capital. They will witness the running of the International Dog Sled Derby and participate in skiing, skating and tobogganing.

In an address upon "Canada's Natural Resources and their Development," in Montreal the other day, G. M. Hunt, development engineer, Canadian Pacific Railway, pointed out that the value of agricultural products have increased fourfold in the last twenty years, while that of mines and forests have been trebled, fisheries doubled and developed water power increased six times over.

Though the popularity of Old Dobbin continues to hold a prominent place on the farms of Canada, the "Iron Horse" or mechanical farm implement is advancing in favor, particularly in the Prairie Provinces. Estimates give a total of 66,220 tractors in operation on the 248,162 Prairie farms, 14,557 of which were bought last year.

Gross tonnage of vessels entering Honolulu harbor has increased from 2,885,218 tons annually to 7,174,286 in the last ten years, according to official figures released late in December. The Canadian Pacific inaugurated direct Vancouver to Honolulu service December 13 with the palatial express liner Empress of Canada. Other company vessels on this run will be the Empress of Russia, Empress of Asia and Empress of Japan, the latter recently launched.

In the province of Quebec there is now a total length of 12,502 miles of paved, macadamized and gravelled roads which is 38 per cent. of all rural roads in the province. In 1929 the Provincial Department of Roads maintained 10,195 miles of improved roads, constructed 1,544 miles of new road, 188 bridges and culverts and eliminated 16 grade crossings and 203 sharp corners and curves.

The Department of Immigration and Industry of the New Brunswick Government is getting ready for the reception of 100 British and numerous Scandinavian families to be brought out in April, May and June, said Hon. J. A. Murray, superintendent of the department, on his return from Montreal to Saint John, following conference there.

Delorous Beauty Parlors. Phone 56, Gleichen.

Last Sunday there were a quite a few of our citizens playing golf—its more dependable than hockey.

While many towns with covered rinks are playing hockey Gleichen is out in the cold—rather the "hot".

Next Sunday, March 2nd, the members of the Gleichen Curlers Club will parade to St. Andrew's church for service at 7:30 p.m.

A program and a one-act play titled "Mix Well and Stir," will be given in the Arrowwood School next Saturday, March 1st.

Charlie McCauley returned to Gleichen Saturday after spending many weeks in Calgary and is looking just as young as ever.

Something should be done to put a stop to cutting and breaking off limbs from trees both along our streets and in private gardens in Gleichen.

It is announced the Gleichen Canadian Chautauqua will be held July 19th to 25th, and that an exceptionally good program has been arranged.

The ice went out of the Bow river last Wednesday, which is the earliest in a great number of years and our Indians are quite concerned over it.

Monday the Blackfoot Indians each received a nice cash payment from Agent Gooderham and his staff and forthwith spent it with our local merchants.

Const. Batts of the A.P.P., desires to give one and all a timely warning to secure their auto license plates for 1930 as it will be his duty from now on to enforce the act.

Airplanes are becoming very common about Gleichen, flying east and west every day. About 3 o'clock Monday morning two flew very low over town, waking up many.

Last week was "whist week" for Gleichen, there being three public drives as well as several private parties. About \$150 was derived from the public parties and evidently were all greatly enjoyed.

Bob McMillan walked in from Arrowwood Saturday, having spent about three weeks visiting his old time friends south of the river. He says: there is a fine crop of babies down that way—and "Bob" knows.

For some months past our up-to-date Blackfoot Indians have been playing golf pool, but there is no truth in the whisper that they intend instructing their squaws in golf this spring and giving the whites a run for their money.

Mr. and Mrs. Frank Bates are happy in the arrival of a boy at their home on Sunday, Feb. 16th. Frank says the heir is a real conservative and has named him Richard Bedford Bates—friend R. B. Bennett should be proud of this.

Ian McLean, who resided in Gleichen all his life until a few weeks ago when he left for Provost, Alta., had a thrilling experience last Saturday when he rushed up stairs in the Bank of Commerce at Provost to find his manager had shot himself through the head with a .45 calibre pistol.

The next meeting of the Gleichen U.F.A. local will be held in the Meadowbrook Community Hall tomorrow Thursday, March 6th, at 2 p.m. Mr. Frank Daw will discuss "Re-cleaning Grain" and the roll call is: How do you Plant and Cultivate potatoes.

### 5,000 FACTS ABOUT CANADA

The public will welcome the 1930 edition of "5000 Facts about Canada" compiled by Frank Yeigh, the well known authority on the Dominion, past and present. This 80-page book is a marvel of condensation and as revealing the story of our country in a nut shell—a story that is as stirring as it is illuminating, and one that no Canadian can afford to miss. That it has not only a national but an empire and world-wide circulation is not to be wondered at. The contents are comprised in 50 alphabetical chapters, ranging from "Agriculture" to "Yukon." This issue contains much new matter and many new features. Copies may be had from leading newsmen or by sending 35 cents for a copy, or \$1 for three copies, to the Canadian Facts Pub. Co., 528 Huron St., Toronto 5.

## Field-Work Power

There's a  
Size for  
Every Farm

Spring work comes with a rush—you need power, sure, certain power, hour after hour, day after day, you need it steadily, incessantly from the first furrow to the last seed. The more work to do the quicker you must do it. The more acres to plow, the more land to work—the more your profits of this year's operations depend on POWER.

Put a CATERPILLAR in your fields. On the side hills, through loose summer fallow or heavy soft spots it will work harder, steadier, surer, with less trouble and at less expense than any other form of power you can use.
